PRODUCTION

Handcrafted "Cold compound" Gin Produced from the best cereals and spring waters.

It is subjected to two process of distillation and during the final process a part of the distillate is put into a steel barrel in a cold infusion for the final refinement with eleven botanicals: Licorice roots, juniper berries, peel of lemon and orange, cloves, cinnamon, ginger roots, pimento berries, horseradish, anise seeds and pink pepper.

TASTING NOTES

Complex, clean and well structured. The nose is both spicy and citric, with a nice balance of licorice, ginger and juniper.

The palate is dry with an uncommon and persisting exotic spicy flavour bestowed by ginger and pink pepper. Finishes dry with a citrus back.
