

SCHUMM

The Taste Collection

WUNDERBURG DRY GIN

Embodies sensuality, discovering the beauty of this world, passionate design and fascination for handicraft. A collection of extraordinary taste experiences.

ABOUT

Christian Georg Schumm was inspired by people, old family recipes, stories told, histories and places. Between all these moods and impressions matured the idea to bring alive a long-cherished passion for craftsmanship, design and pleasure.

Wunderburg Dry Gin is a Super Premium Gin with a “Signature-Botanical” being liquorice. The growing of liquorice of the Family Schumm in Bamberg in the quarter Wunderburg can be traced back to 1878. The liquorice fields are the only ones in Germany and are part of the world heritage of the UNESCO.

TASTING NOTES

With more than 15 botanicals and the forgotten liquorice, Wunderburg Dry Gin possesses a spicy flavour underscored by a natural freshness. Stir the gin with the liquorice - the complex structure of the aromas develop and -the Gin becomes a golden colour!
